SUMMARY

Highly motivated and UI-focused Frontend Developer with a strong foundation in React.js, TypeScript, and modern state management techniques. Eager to leverage expertise in building responsive and scalable solutions, collaborating effectively with cross-functional teams to deliver production-grade features in a challenging full-time role.

EXPERIENCE

STORYMODE

September 2024 – Present

Junior Frontend Developer

- Engineered a mobile-first web application using **React.js** and **Redux**, significantly enhancing user experience and accessibility across diverse devices. Developed and integrated modular, reusable UI components with **Tailwind CSS**, ensuring design consistency and accelerating development cycles.
- Collaborated closely with cross-functional teams, translating business requirements into technical specifications and integrating seamlessly with **REST APIs** using agile methodologies.
- Implemented advanced features such as real-time mapping with OpenStreetMap and integrated Google Social OAuth, streamlining user login and increasing engagement.

PROJECTS

Bus Guardian

- Technologies:** React.js, React native, TypeScript, Redux, Express.js, MongoDB Atlas
- Description:** This project focuses on ensuring the safety and security of students commuting via school buses by providing real-time location tracking. It enables schools and parents to monitor the live location of buses, receive important alerts, and ensure timely communication. The system enhances transparency, improves emergency response, and offers peace of mind to both schools and families.

The Digital Diaries

- Technologies:** React.js, TypeScript, Redux, Express.js, SQLite
- Description:** Developed a comprehensive full-stack blog platform, featuring robust authentication, efficient content management, and interactive social functionalities. Utilized **Redux** with **Redux-Persist** for effective and persistent global state management.
- [GitHub Repo](#)

Pelago Airlines (UI Clone)

- Technologies:** React.js, Redux, Material-UI (MUI)
- Description:** Designed and implemented a clean, intuitive booking and travel user interface, simulating core airline site functionalities. Leveraged **Redux** for managing dynamic user data and ensuring a responsive user experience.
- [GitHub Repo](#)

Tab Saver Extension

- Technologies:** HTML, CSS, JavaScript
- Description:** Built a practical Chrome extension designed to bookmark and efficiently manage frequently visited tabs, enhancing user productivity.
- [GitHub Repo](#)

SKILLS

- Frontend Tech Stack:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux, Redux-Persist, Tailwind CSS, Material-UI (MUI), Bootstrap, Responsive Design, Mobile-First Development
- Backend & Databases:** Express.js, SQLite, MongoDB
- Tools & Methodologies:** Git, GitHub, VS Code, Postman, Agile Methodology, Collaborative Development

EDUCATION

- Bachelor of Commerce in Business Administration, University of Commerce College 2021-2024
